Pineview Commons

An Assisted Living Facility

January 24, 2022

Dear Resident Family Members and/or Representative:

Regarding: COVID-19 – Facility Quarantine

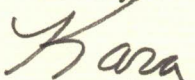

Please accept this letter as a follow up to phone calls made to all family members on Sunday, January 23, 2022. Calls were made to provide notification that two residents of Pineview Commons tested positive for COVID-19. Both residents are doing well. They will remain under isolation protocol until a negative test is confirmed.

We have suspended communal dining and activities for the week of 1/24/22 and will evaluate the need to continue the quarantine further on a daily basis. Residents will be served meals in their room and are being asked to remain in their rooms throughout the week as we monitor the other residents for symptoms of COVID-19. Residents will receive in room activities to help keep them occupied while they are in their rooms. Staff members from the office and activities will make room visits on a regular basis. Residents will be tested if they exhibit symptoms and families will be notified of positive results in writing with follow up letters from this date forward. You will be called directly if your family member has symptoms or tests positive. Please feel free to contact myself or Bobette Shirley, RN, Case Manager to check on the status of your family member at any time.

We will continue to monitor residents closely with temperature and other vital checks at least once daily with increased intervals on residents showing any symptoms. Staff will wear full Personal Protective Equipment as needed when in contact with residents for personal care. All high touch areas of facility will continue to be sanitized on a frequent basis with increased sanitizing where needed.

As stated above you will be kept informed of results of further testing and next steps via follow up letters and updates will continue to be posted on our website. pineviewcommons.org. Please feel free to contact me to discuss further. As a reminder you are receiving this letter as the facility's primary contact. Please contact other family members/friends so they are aware.

Sincerely,

Kara Vollmer
Administrator
